Save the Day!

Keynote: Diagnosed Chronic Health Conditions among Injured Workers

Becky Casey and Peri Ballantyne

Becky Casey has a PhD in Sociology from McMaster University. Her research areas of interest are aging, disability, work injuries, and health. She uses qualitative and quantitative research methods to study the health experiences of injured workers. She recently published a study with Peri Ballantyne entitled *Diagnosed Chronic Health Conditions among Injured Workers with Permanent Impairments and the General Population* in the Journal of Occupational and Environmental Medicine.

Peri Ballantyne is an Associate Professor in the Department of Sociology at Trent University. She currently teaches sociology research methods, the sociology of health and illness, and the sociology of medicine.

Her current research is focused on the lay experience of illness (with a particular interest in pharmaceutical use) and the sociology of work and health.

Workshop Objective

To share the latest information from both health care and legal perspectives on the issue of pre-existing conditions and workers' compensation, and to inform those considering submissions for the upcoming WSIB review of the pre-existing conditions policy.

Registration Required

Registration fee for the waged and students: TBA
RSVP to BancroftInstitute@gmail.com
Tokens are provided for the unwaged.

Please avoid wearing scents or fragrances when attending the workshop.
